

COMMERCIAL.

FRIDAY, NOVEMBER 11, 1881.

Commercial affairs during the week past have not displayed any great activity, the reports to date not exhibiting any departure with domestic produce. The reason assigned for this is the absence of the arrival of sugar and also the fact that the height of the local season is now passing, and the demand for sugar is not so great as it was some time since. The arrival of sugar is now upon us, and as a natural consequence, vessels are not so plentiful with the promptness and safety that they were with a normal season. The arrival of our staple export will enable shippers to freight vessels more quickly.

Local business is fair, demands from the other islands occupying the time and attention of business men, and the orders coming forward are such as to create a feeling of satisfaction in business circles and promise a busy season during the month of December. The present season might be made that a large amount of trade in all lines of business especially in the grocery, hardware, furnishing goods and stationary lines, does not pass through the channels which it should, viz: through the hands of business houses in the community, but instead finds a most unaccountable means of exit by the various agents of foreign houses, who at certain seasons are plentiful on the islands. This manner of obtaining goods from abroad and thus debarring the business houses, who pay rent and taxes here, from rightful profits, is not engaged in alone by private individuals, but also by the Government. This matter will receive more attention at our hands and it is a subject of sufficient importance to induce action by that somewhat body, the Chamber of Commerce.

The imports for the week consists of the general cargo brought by the D. C. Murray from the Coast, and a cargo of lumber by the Steamer from the Sound, the total valuation being in the neighborhood of \$45,000.

Appended is given the amount and nature of the departure and also of the passenger traffic during same.

THE PACIFIC Commercial Advertiser.

SATURDAY, NOVEMBER 12, 1881.

Court News.

Their Majesties the King and Queen attended Divine Service at St. Andrew's pro-Cathedral on the morning of Sunday last. The Lord Bishop of Honolulu was the preacher.

On Sunday afternoon the Lord Bishop of Oahu chanted a Te Deum at the Cathedral Church of the Blessed Virgin in acknowledgment of the safe return of the King. Their Majesties the King and Queen and His Majesty's suite attended this interesting service.

On Wednesday next, the anniversary of His Majesty's birthday, the King will address his people in Kawaiahae Church. The hour fixed for the address is ten o'clock A.M.

His Majesty the King, will hold a birthday levee on Wednesday next, at Aliolani Hale, between the hours of 12 noon and 2 P.M.

On Wednesday, the 9th November, His Majesty the King, accompanied by the Lord Chamberlain Hon. Chas. Judd, visited the yacht Wanderer. At lunch on board, His Majesty proposed the health of H. R.H. the Prince of Wales, (it being his birthday), Captain Lambert in response proposed the health of His Majesty the King.

On Friday, their Majesties the King and Queen, and Her Highness Princess Keelikouli proposed to visit the yacht Wanderer, the heavy rain which occurred during the afternoon prevented their Majesties from carrying out this intention. Their Majesties will entertain Captain and Mrs. Lambert at their country residence at Pualani, Waikiki.

The Rev. SERENO E. BISHOP preached a sermon last Sunday evening at Fort Street Church, which has aroused a good deal of discussion. The sermon was commemorative of His Majesty's return to his Kingdom, and was an able and impressive discourse, illustrating the scholarly and studious characteristics of the Reverend gentleman. The preacher especially desired, judging from the tenor of a portion of his remarks, that his address in relation to our native Hawaiian King, should convey a newly awakened, and warm spirit of kindness and charity towards the native Hawaiian people, who had not, as the reverend gentleman confessed, heretofore fully enlisted his entire fraternal sympathy, and a Christian fellowship. But we regret to express our opinion, that in this respect, the sermon was a signal failure.

What kindness or charity to the Hawaiian race can be discerned in the following expressions quoted from the published extracts of the sermon?

"Even the decrepit paganism of the land having lifted up its leprous visage to greet him with the bestialities of the *hula hula*." "The members of the Legislature are to an extent chosen by debauched and drunken voters, who select men of the most abandoned character."

Of what significance are any complimentary terms addressed to the Sovereign, when it is charged at the same time, that the palace grounds were surrendered for an unseasonable time to the elaborate bestialities of a decrepit paganism? And what indignity can be awakened in the hearts of a people, who are told that they select their representatives amid the brutalities of drunken orgies? It is a vain overture of peace, and a hopeless endeavor to promote fraternal harmony, to present a bouquet of compliments with one hand; and to smite with a slanderous scourge in the other. And they are slanders, the expressions that are quoted. The ancient Hawaiian chant and recitation, that greeted His Majesty in the palace grounds, were not elaborate bestialities. It has been a common slander among foreigners against Hawaiians to designate every kind of ancient Hawaiian chant and recitation, as an obscene *hula hula*. We have no word to say in behalf
